Night Eyes Tours Are Back

Night Vision Scopes Reveal Wildlife is Wilder After Dark

Join Zoo Director David Tetzlaff for the fifth year and most exciting year of private guided tours of Naples Zoo after night falls. See the nocturnal activities of rare animals in the dark including tigers and lions using night vision scopes. After an orientation to night behavior on the video screens in Safari Canyon and an equipment review, Tetzlaff and staff will lead you into the darkness for over two hours. Along the way, participants also enjoy personal animal encounters, behind-the-scenes experiences, and a night cruise through islands of monkeys, lemurs, and apes.
